

JETT MULTIPPOINT

Electric Instantaneous Water Heater

Jett Instantaneous Multipoint Water Heater is Asia's First Immersed Thermostat System. Built to achieve the best performance on accuracy, safety and faster thermal sensing.

INNOVATIONS:

- Dual thermostat Protection System
- Pressure Relief Valve
- Electronic ELCB 15mA sensitivity
- Auto water flow sensor
- Suitable for high and low water pressure area

TECHNICAL AND SPECIFICATION INFORMATION

MODEL	JETT MULTIPPOINT
TECHNOLOGY	Electronic Control System
OPERATION/FEATURES	Fully Automatic Operation / Built-in ELCB
APPLICATION	In - Line (for whole bathroom) one tap at a time
TEMPERATURE SELECTOR & CONTROL	Step-less (minimum to maximum)
ACTIVATING MECHANISM	Flow Sensor Activated Power Switch
THERMAL/OVER-TEMPERATURE CUT-OFF	50 °C - 55 °C ; Final Cut OFF ± 80 °C
ELECTRICAL POWER RATING	6.0 Kilowatts
VOLTAGE/ CYCLE / PHASE	220 - 240 VAC / 50 - 60 Hz / Single Phase
REQUIRED CIRCUIT BREAKER RATING	30 Amperes
CABLE SIZE	#12
MINIMUM ACTIVATING PRESSURE	1.5 psi (pounds per square inch)
OPERATING WATER PRESSURE	0.3-3.4 BAR (5-50 PSI)
WATER CONNECTION	1/2 " / 15 mm
DIMENSIONS (mm)	356 (H) X 246 (W) X 116 (D)
WEIGHT (Kg)	3.0 kg
ACCESSORIES	Fittings
MANUFACTURER	Maxvic Sdn. Bhd.
MADE	Malaysia
QUALITY APPROVAL	UL / CSA
